Volume 90, no. 11, p. 5246–5255, 2016, <https://doi.org/10.1128/JVI.00177-16>. Page 5251, Fig. 4C: While checking laboratory files related to this article, we realized that we made a mistake during the preparation of Fig. 4C. The published figure was obtained in a previous study not related to marseillevirus and was inadvertently selected from our image data bank to set as panel C. We have prepared an updated version of this panel that includes the correct immunofluorescence images.

Figure 4C should appear as shown below.

The interpretation of the results remains the same. We apologize for any inconvenience.
